NATURES CALLING

Grand Seiko's new timepieces are seasonal masterpieces.

BY ANTHONY MARINI

OFETS INSPIRED BY NATURE'S DYNAMIC ELEMENTS, Grand Seiko's timepieces allow deep into the intricate link between nature and time. For the forest-themed SGBG001, 002, 003 and 004, they allow for a dynamic power that embodies the spring, summer, and fall seasons.

THE SGBG001
There is a popular legend for the "Chusonji" in which the gods walk out on the river of the Forest Lake. Some believe the tidal currents and waves have constantly dredged the date of the 800-year-old legend. The SGBG001 is the latest model in the SGBG000 series, which has been around since 2005. The date of the 800th anniversary of the legend is the 20th of the 12th month of the year 2015. The SGBG001 is equipped with the Caliber 9R55, which features a dual power source of 72 hours when fully wound.

THE SGBG002
Established in 1911, the Grand Seiko brand is one of the oldest timepieces in Japan. The SGBG002 is a seasonal edition for the summer. The date of the 12th month of the year 2015, and the 100th anniversary of the brand, the SGBG002 is equipped with the Caliber 9R55, featuring

a power reserve of 90 hours and twin barrels. The 81 pieces of the Evolution-style watch is made with high-quality titanium, the same material that powers the deep blue dial.

THE SGBG003
For the SGBG003, Grand Seiko found inspiration in Japan's "akai" season in Japan when the cherry blossoms are over, and the leaves are falling. The SGBG003 is a seasonal edition for the autumn. At the same time, the watch appears to be made of natural materials, the wood and leaves, but when you look through the sapphire crystals, the exposed titanium barrel, the movement is quite complicated. Inside, the movement is powered by the Caliber 9R55, which has a 90-hour power reserve. The SGBG003 is made of high-quality titanium, and has a double accuracy rate and a power reserve of 72 hours.

THE SGBG004
We approached a seasonal edition for the SGBG004, inspired by the "fukinuki" in the world when the leaves that are still on the Grand Seiko studio (Meigakudo) in northern Japan, change. And although the watch is just around the corner — which is evident on the date of the 20th of the 12th of the SGBG004, the watch is equipped with the hand-wound movement, Caliber 9R45, featuring

Both the Haute Living and Haute Time verticals work with the most prestigious watch and jewelry brands in the world on dedicated, mono-branded editorials. Such brands include Cartier, Tiffany & Co., Gucci, Chanel High Jewelry, and Louis Vuitton, among others. This gives the brands the opportunity to support brand initiatives that are time sensitive and significant, beautifully showcasing them to the Haute Living readership, which also represents the target demographic for each of the brands.
